

# GESICHTSREINIGUNGSSCHAUM

Gentle, deep cleaning

**Delicate, gentle but effective cleansing foam using sugar tensides and purely plant-based relipidising agents. Resulting in skin that feels cleansed and healthy.**

Correct cleansing of the skin is a basic requirement for proper face care. This ensures the skin is perfectly prepared to **receive the treatment**. It is important to ensure that a face cleansing treatment restores the natural balance of the skin.

Natural sugar tensides provide an effective cleansing treatment while **gently removing oil, dirt and make-up from the skin**. The plant-based relipidising agents help protect your skin. The active agents in organic aloe vera protect the epithelium, the upper layer of the skin.

**Advice for adolescents:** Initial impurities in the skin, such as blackheads, spots and acne mostly begin to appear during puberty. An excess of oil in the skin is perfect environment for spots and blackheads. Proper cleaning of the face is the basis for all treatments, whether these are for blackheads, spots or acne.

**Note:** Man may also use the Face Cleansing Foam as a (non-foaming) shaving cream. First wet the face with warm water. The relipidising organic olive oil and aloe vera nourish the skin at the same time.

## Active ingredients:

**Yucca schidigera extract:** provides especially gentle cleansing and has an anti-inflammatory effect on the skin

**Organic aloe vera:** is moisturising and soothes weathered, irritated skin

**Betaine** is extracted from sugar beet molasses. It provides moisture and soothes the skin.

**Glycerine:** provides moisture and smooths the skin

**Vitamin E:** reduces inflammation, promotes wound healing

## Plankton extract

A special feature of the RyBeauty Cosmetics Range is the plankton extract which is taken from **marine plankton**. The following effects have been proven in studies: It improves the skin's physical barrier, its chemical barrier and supports rapid regeneration of the skin's hydrolipid layer.

**Ingredients from the sea - for healthy skin!**

The **five pillars** of RyBeauty Cosmetics

1. **Care and repair:** The ingredients of aloe vera and vitamin E ensure a gentle treatment and provide the body with the substances it requires for its own regeneration processes.
2. **Protection:** Olive oil, sunflower oil and, in particular, plankton extract strengthen the skin's protective layer.

# GESICHTSREINIGUNGSSCHAUM

Gentle, deep cleaning

3. Anti-ageing: The moisturising ingredients help to produce smoother skin.
4. Natural cosmetics: With the "Natruue" seal, we confirm that our products meet 100 % of the requirements for natural cosmetics.
5. Hypoallergenic: Only well-tolerated substances are used in the products. The products have been dermatologically tested.

As with **all RyBeauty Products** our Face Cleansing Foam is

- free from petrochemicals and mineral oils
- free from paraffin
- free from silicon oils
- free from petrochemical substances
- free from synthetic fragrances
- free from sodium-laureth-sulphates and sodium-lauryl-sulphates
- Natural cosmetics given the Natruue seal of approval
- Dermatologically tested on skin
- free from allergens
- free from preservatives
- with plankton extract - the power of the sea

## Application

Dispense one pump of the foam onto wet hands and gently massage it into the pre-rinsed skin of the face, neck and neckline. Rinse thoroughly using warm water.
