

GESICHTSWASSER

Refreshing after-treatment

Removes any remaining dirt particles from the skin, with a refreshing and moisturising effect. This is the ideal primer to prepare your skin for the application of other treatments.

Active ingredients:

Thermal water: sourced at the spa in Bad Krozingen, it is considered the champagne of thermal springs, supporting cardiac and circulatory health. It contains an abundance of sodium, calcium and sulphate.

Betaine: extracted from sugar beet molasses. It provides moisture and soothes the skin.

Organic aloe vera: is moisturising and soothes weathered, irritated skin.

Glycerine: provides moisture and smooths the skin.

Plankton extract

A special feature of the RyBeauty Cosmetics Range is the plankton extract which is taken from **marine plankton**. The following effects have been proven in studies: Improvement of the physical skin barrier, improvement of the chemical barrier of the skin and faster regeneration of the hydrolipid layer. **Ingredients from the sea - for healthy skin!**

The **five pillars** of RyBeauty Cosmetics

1. **Care and repair:** Aloe vera ensures a gentle treatment and provides the body with substances it re-

quires for its own regeneration processes. The thermal water from Bad Krozingen enriches the skin with valuable minerals.

2. **Protection:** Plankton extract strengthens the skin's protective layer. RyBeauty Face Water has a pH of 4-5.5 and prevents changes to the skin's pH following previous cleansing treatments.
3. **Anti-ageing:** The moisturising ingredients help to produce smoother skin.
4. **Natural cosmetics:** With the "Natrue" seal, we confirm that our products meet 100 % of the requirements for natural cosmetics.
5. **Hypoallergenic:** Only well-tolerated substances are used in the products. The products have been dermatologically tested.

As with **all RyBeauty Products** our Face Water is

- free from petrochemicals and mineral oils
- free from paraffin
- free from silicon oils
- free from petrochemical substances
- free from synthetic fragrances
- free from sodium-laureth-sulphates and sodium-lauryl-sulphates
- Natural cosmetics given the Natrue seal of approval
- Dermatologically tested on skin

GESICHTSWASSER

Refreshing after-treatment

- free from allergens
- free from preservatives
- with plankton extract - the power of the sea

Product information

200ml dispenser

Application

First clean your face using a RyBeauty cleansing product. Soak a cotton pad with the Face Water and gently apply this to your face, neck and neckline (avoiding contact with the eyes). After this had been applied, you may apply either the Day or Night Cream.

Skin type

Suitable for all skin types
